

To Whom It May Concern,

Please do not get rid of the Do Not Call Bill. This is very important to everyone in today's time. Life is busy, with both parents working in the home & out of the home, we just don't have enough time in the day to answer unimportant phone calls from solicitors. There are also more children at home without parents present because of hectic work schedules. These children should not have to continue to pick up these calls just to see if it is a parent calling in. Please Do Not get rid of DO NOT CALL.

Thank You,

Beth Dipierro
